# Data, Disasters, Displacement

## DEBUNKING DATA - INDICATORS AND METHODS

**Virtual Event**

**Triple-D webinar series of the PDD Data and Knowledge Working Group, co-chaired by IOM and IDMC.**

The International Organization for Migration (IOM) and the Internal Displacement Monitoring Centre (IDMC) are inviting you to the second session of the Triple-D webinar series to explore data collection methodologies and useful indicators which help in identifying populations who are more vulnerable in the context of disasters, climate change and environmental degradation.

**Multicausality and complexity in data collection methodologies and indicators?**

**31 MAY 2022**
**16.00 - 17.30 (CET)**

**Register at**
